02 / NPM ENERGY

Who We Are

NPM Energy is a global energy solutions company committed to delivering reliable and sustainable energy that powers industries, supports communities, and drives progress.

With deep market expertise and a resilient operational network, we connect energy to opportunity - safely, efficiently, and responsibly.

Delivering trusted energy solutions through expertise, integrity, and global reach.

03 / NPM ENERGY

Vision, Mission & Values

VISION

To be a leading global energy solutions company, recognized for powering progress and building a sustainable future.

MISSION

We deliver reliable and innovative energy solutions through expertise, integrity and responsible operations, empowering industries and enriching communities.

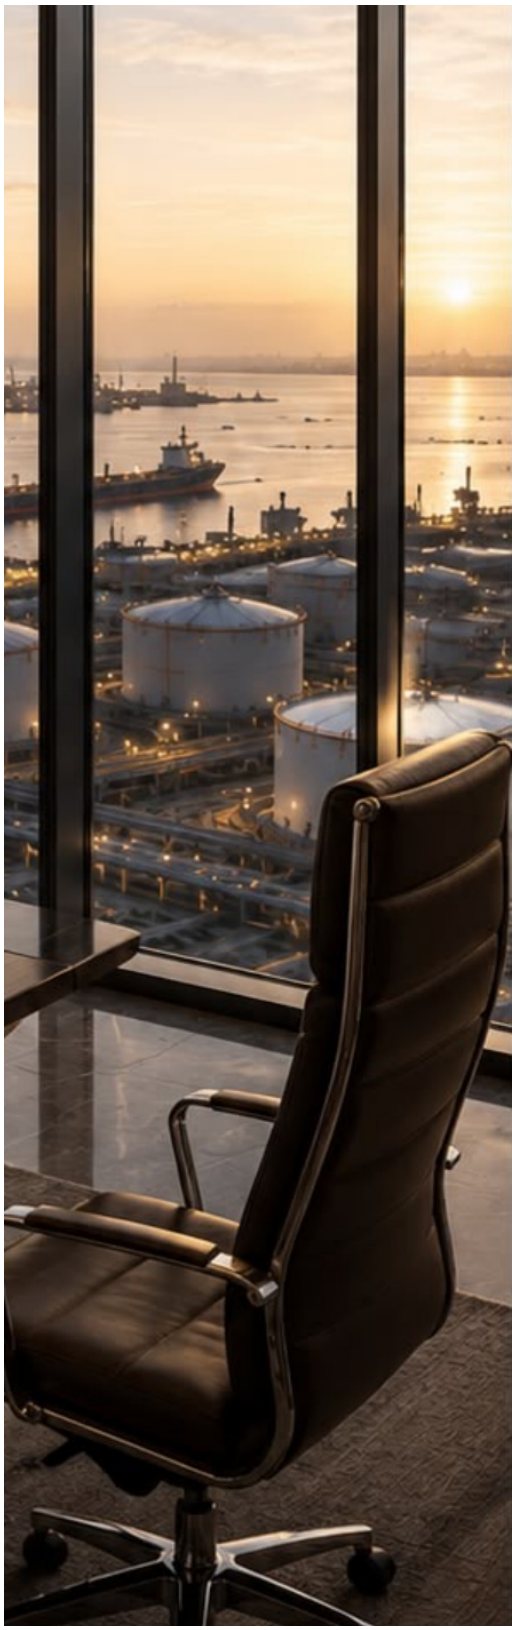

VALUES

We act with integrity, pursue excellence, value our people, and are committed to safety, sustainability and creating long-term value.

04 / NPM ENERGY

Chairman’s Message

The global energy landscape is evolving rapidly, shaped by increasing demand, innovation, and the urgent need for responsible solutions. At NPM Energy, we embrace this future with clarity and purpose.

Our focus is simple yet unwavering: to deliver reliable energy solutions that create value for our partners, our communities, and the environments in which we operate. Through discipline, integrity, and a deep understanding of the markets we serve, we are building a company that stands the test of time.

People are at the heart of our success. Their expertise, commitment, and passion drive our progress every day. Together, we push boundaries, seize opportunities, and transform challenges into sustainable growth.

As we look ahead, we remain committed to excellence in everything we do - strengthening our partnerships, advancing our capabilities, and creating lasting impact for generations to come.

I am confident in our journey and excited about the future we are building together.

Naif Almaysari

CHAIRMAN

05 / NPM ENERGY

Our Story

NPM Energy began with a clear purpose: to create a trusted link in the energy value chain. From our early days in trading and supply, we set out to deliver reliable energy solutions with integrity, transparency, and a deep understanding of our markets.

What started as a focused operation quickly grew into a fully integrated energy company. We expanded our capabilities across trading, logistics, storage, and energy solutions - building the infrastructure, systems, and partnerships needed to serve our customers with consistency and confidence.

Our growth has been driven by a disciplined approach and a strong belief in long-term relationships. By combining market insight with operational excellence, we have strengthened our presence across key regions and established a global network that supports the movement of energy where it is needed most.

At the heart of our journey are the people who make it possible every day - our teams, our partners, and our customers. Their trust inspires us to raise the standard and deliver sustainable value.

As we look ahead, we remain committed to growing responsibly, investing in the future, and powering progress for the communities and industries we serve.

06 / NPM ENERGY

Company Overview

NPM Energy is a fully integrated energy trading and supply company with a comprehensive portfolio that spans the entire energy value chain. We operate across trading, logistics, storage, and energy solutions - delivering reliable products and services to meet the evolving needs of our customers.

Our infrastructure is strategically positioned to ensure operational excellence and supply continuity. With state-of-the-art storage facilities, efficient logistics capabilities, and strong global partnerships, we are able to source and supply a wide range of energy products with speed, safety, and reliability.

We serve a diverse customer base across industrial, commercial, and government sectors By combining technical expertise, market insight, and a deep understanding of our customers' needs, we deliver tailored energy solutions that create value and drive long-term growth.

Sustainability and safety are at the core of everything we do. We are committed to responsible operations, environmental stewardship, and the continuous improvement of our systems and people.

At NPM Energy, we don't just supply energy - we power industries, support communities, and enable progress.

07 / NPM ENERGY

Business Sectors

NPM Energy operates across the full spectrum of the energy value chain through a diversified portfolio of integrated business sectors.

Our Trading & Supply division sources and supplies a wide range of energy products - including petroleum, refined products, and specialized fuels - delivering reliable solutions to global and regional markets.

Our Logistics & Storage sector provides end-to-end supply chain capabilities, including marine logistics, land transportation, and state-of-the-art storage facilities strategically located to ensure efficiency, safety, and continuity.

Through our Energy Solutions division, we deliver innovative and sustainable solutions across industrial and commercial segments, supporting customers with dependable supply, technical expertise, and long-term partnerships.

We are also committed to the future through our focus on New Energies, investing in cleaner alternatives and lower-carbon solutions that support the global transition and the energy needs of tomorrow.

Together, our sectors work in harmony to deliver integrated value, operational excellence, and sustainable growth - powering industries and empowering progress.

08 / NPM ENERGY

Trading & Supply

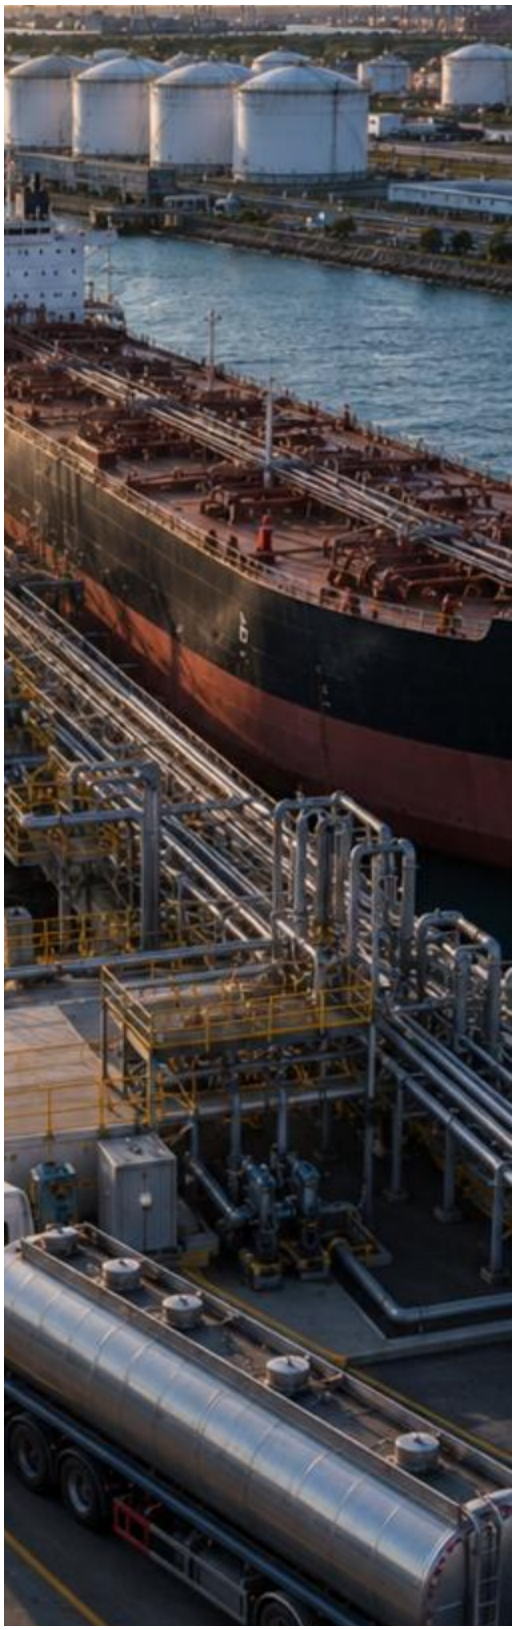

Our Trading & Supply division sources and supplies a comprehensive range of energy products to meet the needs of our customers across diverse markets.

We deal in crude oil, refined petroleum products, LPG, and specialized fuels, ensuring reliable supply from trusted producers and refineries around the world.

With deep market insight and strong supplier relationships, we are able to respond quickly to market demands and deliver products that meet the highest standards of quality and compliance.

Our experienced team manages the entire supply process - from procurement and negotiation to logistics and final delivery ensuring efficiency, transparency, and value at every step.

We are committed to building long-term partnerships and delivering dependable energy solutions that support the success of our customers and the growth of the communities we serve.

09 / NPM ENERGY

Refined Products

Our Refined Products division is focused on producing high-quality petroleum products through advanced refining processes and state-of-the-art technology.

We operate modern refineries that convert crude oil into a wide range of refined products, including gasoline, diesel, jet fuel, LPG, petrochemicals, and specialty products, meeting international quality standards.

Our operations are designed for efficiency, reliability, and environmental responsibility, with advanced process control systems that maximize yield, ensure safety, and minimize emissions.

With a commitment to innovation and continuous improvement, we optimize our refining capabilities to meet evolving market demands and deliver value to our customers.

We play a vital role in supporting energy security and driving sustainable growth across industries and communities.

10 / NPM ENERGY

Logistics & Supply Chain

Our Logistics & Supply Chain division delivers end-to-end supply chain solutions that connect energy resources to markets efficiently, safely, and reliably.

We operate across multiple modes of transport, including maritime, road, and rail, supported by modern infrastructure and advanced logistics systems. Our integrated network enables the seamless movement, storage, and distribution of energy products across domestic and international markets.

From bulk storage and terminal operations to transportation, customs clearance, and last-mile delivery, we manage every step of the supply chain with precision and care. Our facilities are strategically located to optimize routes, reduce lead times, and ensure business continuity.

We leverage digital technologies and real-time data to enhance visibility, improve efficiency, and maintain the highest standards of safety, compliance, and operational excellence.

By combining infrastructure, expertise, and innovation, we create resilient supply chains that support our customers, strengthen our partnerships, and drive long-term value.

11 / NPM ENERGY

Storage & Terminals

Our Storage & Terminals division provides safe, secure, and efficient storage solutions for a wide range of energy products, supporting stable supply and smooth operations across the energy value chain.

We operate strategically located storage facilities equipped with advanced infrastructure and technology to handle crude oil, refined products, LPG, and chemicals. Our terminals are designed to meet the highest standards of safety, quality, and environmental protection.

With flexible storage capacities and reliable handling capabilities, we support our customers with tailored solutions that meet their operational needs. Our facilities are built for efficiency, connectivity, and rapid turnaround, ensuring seamless integration with transportation networks and supply systems.

Safety and integrity are at the core of our operations. We adhere to strict international standards and best practices to protect our people, assets, and the environment.

Through operational excellence and continuous investment, we deliver trusted storage and terminal services that ensure reliability today and support the energy needs of tomorrow.

Energy Solutions

Our Energy Solutions division delivers innovative and sustainable solutions that address the evolving needs of the energy sector while advancing the global transition to a lower-carbon future.

We combine our deep industry expertise in traditional energy with a growing portfolio of low-carbon and renewable energy solutions, helping our customers improve efficiency, reduce emissions, and build a more sustainable tomorrow.

Our capabilities include energy optimization, emissions management, carbon reduction strategies, renewable energy integration, hydrogen solutions, and digital technologies that enhance performance and support informed decision-making.

We partner with our customers to develop tailored solutions that reduce environmental impact, enhance energy security, and create long-term value.

Through innovation, collaboration, and responsible operations, we are committed to powering progress and building a cleaner, more resilient energy future for generations to come.
